The Leotek Advantage

The Couche-Tard/Ultramar joint partnership store utilizes Leotek's LED products to illuminate the property and build their brand, while saving over 60% on energy costs. LCN2-096's light the gas canopy, and SLN-102's brighten the Parking Lot. On the building, LWS1-036's and LSF1-036's provide security and general lighting. Leotek's CL5 Lite-Stik is used to down-light the "Ultramar" name branding. Inside the store, Leotek's CL5 Cooler Light adds sparkle to merchandise, while saving 70% more energy than fluorescent. Leotek long-life LEDs are virtually maintenance free, and backed by a limited 5-year warranty.

Couche-Tard Shines Bright with Leotek Lights

About Leotek

Leotek Electronics USA Corp., located in Silicon Valley, California since 1997, is globally recognized as a pioneer in light-emitting diode (LED) technology. With millions of LED products installed throughout the United States, as well as on a global scale, Leotek offers a history of proven performance. We manufacture innovative LED lighting products for applications encompassing traffic and transit, street and area, commercial, and petroleum, convenience, grocery and retail stores.

Leotek is committed to developing emerging solid-state technology that offers greater longevity and environmental viability than traditional lighting sources, while reducing energy consumption and maintenance costs. Leotek, "The Leader in Electro-Optics Technology," continues to lead the next generation with LED Green Technology.
