

Convenience Store Exterior LED Lighting Retrofit

Before

Traditional HID Canopy Lighting

After

“The King Fuels Dealer was very pleased with the increased light levels on the fuel dispensers as well as the surrounding area parking lot.”

Product

LCN1 Canopy Luminaire

- 96 Cool White LEDs
- Prismatic, UV Stabilized Lens
- 120-277V Power Supply

King Fuels Valero Shines Bright Beneath Leotek LED Lighting

LCN1 Canopy Luminaire Features

High Visibility Illumination

- Extraordinarily uniform illumination with high footcandles on the ground and fuel dispenser
- High CRI, white light enhances visual acuity
- Instant-start LEDs, compatible with inverters and battery back-up emergency lighting systems

Life Cycle Economies

- High LED efficiency reduces energy cost
- 60,000 +/- hour projected life reduces maintenance

Ease of Installation & Maintenance

- Installs in minutes, completely covering existing holes and markings
- Utilizes existing conduit, wiring, and screw mounting holes
- Access power supply from below

The Leotek Advantage

After Leotek LED lighting was installed at King Fuels Valero located at 1801 W. Main Street, League City, Texas, the store saw marked improvement of light levels on the ground, as well as on the fuel dispensers. Customers immediately benefited from the better visibility and an improved feeling of safety. Eighteen traditional HID fixtures were replaced by eighteen Leotek LCN1 Series 96 LED Canopy Luminaires. With Leotek's five-year limited warranty and long life LED technology, maintenance has been virtually eliminated, dramatically reducing the annual operating costs. As a result of making the switch to Leotek high-performance LED lighting, King Fuels Valero benefits from dramatically reduced energy consumption and operating expenses, and a better represented brand image.

About Leotek

Leotek Electronics USA Corp., located in Silicon Valley, California since 1997, is globally recognized as a pioneer in light-emitting diode (LED) technology. With millions of LED products installed throughout the United States, as well as on a global scale, Leotek offers a history of proven performance. We manufacture innovative LED lighting products for applications encompassing traffic and transit, street and area, commercial, and petroleum, convenience, grocery and retail stores. Leotek is committed to developing emerging solid-state technology that offers greater longevity and environmental viability than traditional lighting sources, while reducing energy consumption and maintenance costs. Leotek, "The Leader in Electro-Optics Technology," continues to lead the next generation with LED Green Technology.
