

### Convenience Store Exterior LED Lighting Retrofit

**“The difference at the O’Connor Quik-Way site is like night and day.”**  
*Randy Sloan*  
*Director of Maintenance, Quik-Way*

### Products

LCN1 Canopy Luminaire

CL5 Lite-Stik

LSF1 Soffit Luminaire

### The Leotek Advantage

After Leotek LED lighting was installed at the O’Connor Quik-Way Shell, located on Highway 183 in Irving, Texas, the store’s utility bill dropped by over 60%. With Leotek’s five-year limited warranty and long life LED technology, maintenance has been virtually eliminated, dramatically reducing the annual operating costs. Four 400W MH 2’x2’ surface mounted canopy fixtures were replaced by Leotek LCN1 Series 96 LED Canopy luminaires. Sixteen 400W MH corner mounted canopy fixtures were replaced by Leotek LSF1 Series 60 LED Soffit luminaires. Around the perimeter of the building, one-hundred-twenty linear feet of 70W T12 cove mounted fluorescent fixtures were replaced by twenty-four Leotek CL5 Series 5’ Lite-Stiks, creating a brighter environment and sending a clear “we’re open and you’re safe” message to consumers. As a result of making the switch to Leotek high-performance LED lighting, and in addition to the dramatically reduced energy consumption and operating expenses, Quik-Way Shell benefits from significantly improved quality of light and light levels, and a better represented brand image.

### Quik-Way Shines Bright Beneath Leotek LED Lighting

Along with unparalleled cost savings, the improved brightness, color quality and outstanding uniformity provide a heightened sense of consumer safety, yielding a rapid return on investment.

### About Leotek

Leotek Electronics USA Corp., located in Silicon Valley, California since 1997, is globally recognized as a pioneer in light-emitting diode (LED) technology. With millions of LED products installed throughout the United States, as well as on a global scale, Leotek offers a history of proven performance. We manufacture innovative LED lighting products for applications encompassing traffic and transit, street and area, commercial, and petroleum, convenience, grocery and retail stores. Leotek is committed to developing emerging solid-state technology that offers greater longevity and environmental viability than traditional lighting sources, while reducing energy consumption and maintenance costs. Leotek, "The Leader in Electro-Optics Technology," continues to lead the next generation with LED Green Technology.
