LED GREEN Technology

FOR IMMEDIATE RELEASE

Leotek “Total Solutions” LED’s Retrofit Couche-Tard Petroleum Stations

SANTA CLARA, CALIFORNIA - October 14, 2009 - Leotek is pleased to announce our involvement in the energy-efficient LED lighting retrofit of hundreds of Couche-Tard petroleum stations throughout Canada. Through the efforts of both Leotek and our Canadian distribution partner, Electromega, a wide range of products from Leotek’s environmentally-friendly General Illumination and Commercial Signage lines are being installed at each location. Products installed include: the CL3 Cooler Light, CL3 Lite-Stik, CN1 Canopy Luminaire, LSF Soffit Light, LWS1 Wall Sconce, MR-16, and SLN Outdoor Luminaire.

Primary among the many benefits of Leotek’s LED “Green Technology” are reduced power consumption and maintenance costs. Depending upon the product, power consumption fees could show reductions varying from 40 to 80%. In addition, maintenance requirements are designed to be minimal for at least 50,000 hours. All products include Leotek’s Standard Limited 5-Year warranty.

About Leotek

Leotek Electronics USA Corp., located in Silicon Valley, California since 1997, is globally recognized as a pioneer in light-emitting diode (LED) technology. With millions of LED products installed throughout the United States, as well as on a global scale, Leotek offers a history of proven performance. We manufacture innovative LED lighting products for applications encompassing traffic and transit, street and area, commercial, and petroleum, convenience, grocery and retail stores.

Leotek is committed to developing emerging solid-state technology that offers greater longevity and environmental viability than traditional lighting sources, while reducing energy consumption and maintenance costs. Leotek, “The Leader in Electro-Optics Technology,” continues to lead the next generation with LED Green Technology. For more information, please visit www.leotek.com.
