LED GREEN Technology

FOR IMMEDIATE RELEASE

Leotek Receives ISO 9001 Certification for United States Manufacturing Facility

MILPITAS, CALIFORNIA – June 17, 2011 - Leotek Electronics USA Corp. now holds ISO 9001 certification for the company's American manufacturing facility, located in Milpitas, California. ISO, or The International Organization for Standardization, is a non-governmental organization and the world's largest developer and publisher for international quality management systems standards. Obtaining this certification demonstrates Leotek's continued commitment to providing LED products of the highest quality, and clearly qualifies the company as a United States manufacturer of LED traffic signal modules.

About Leotek

Leotek Electronics USA Corp., located in Silicon Valley, California since 1997, is globally recognized as a pioneer in light-emitting diode (LED) technology. With millions of LED products installed throughout the United States, as well as on a global scale, Leotek offers a history of proven performance. We manufacture innovative LED lighting products for applications encompassing traffic and transit, street and area, commercial, and petroleum, convenience, grocery and retail stores.

Leotek is committed to developing emerging solid-state technology that offers greater longevity and environmental viability than traditional lighting sources, while reducing energy consumption and maintenance costs. Leotek, "The Leader in Electro-Optics Technology," continues to lead the next generation with LED Green Technology. For more information, please visit www.leotek.com.
