LED Display Lighting Refrigerated Cooler Light CL5 Series

Installation Guide

This procedure is designed as an installation aid. Skilled trades people that are familiar with general construction and electrical installation techniques should perform the installation. Licensed electricians should provide electrical installation connections. Installations and connections should be done in accordance with all national and local codes and permits. In no way is this document intended to construe warranty or fitness of use of the products described, nor is it intended to provide safety instruction for those installing the product.

WARNING

Before proceeding with installation or service maintenance of this product:

- Disconnect power to reduce electrical shock risk.
- Review the entire Installation Guide.
- Inspect this properly packaged product for any damage that may have occurred during transit.
- Verify product application complies with manufacturer design recommendations.
- Verify the availability of necessary tools and incidental material.
- Verify applicable code requirements. Field assembly and installation are subject to acceptance by local inspection authority.
- Appropriate safety equipment to be determined by end user, per applicable safety standards and precautions.

Fig. 1

Step 1 – Terminate the power supply positive red conductor to the CL5 white conductor. Terminate the black conductor of CL5 to the power supply black conductor.

Fig. 2

Step 2– Terminate the power supply black and white conductors to the black and white conductors of the AC feed.

Fig. 3

Step 3 – Mount the CL5 cooler light to the cooler.
