

"The Leader in Electro-Optics Technology"

a subsidiary company of **LITEON**[®]

Lite-On Acquires Leotek

At Leotek, customer service is our first priority. Established as a pioneer in Light-Emitting Diode (LED) technology since 1992, Leotek Electronics is globally recognized as a leader of the LED industry.

In 2007, Leotek was acquired by Lite-On Technology, an innovator of the Taiwan LED/IT industry since 1975. Lite-On is the world's largest notebook adapter manufacturer, holding a 60% global market share. Among Lite-On's many LED products, photocopiers occupy a 14% market share globally. Other major products include projector power supplies, phone camera modules, keyboards, and enclosures, all of which have large global market shares.

Looking forward, we are excited about the powerful benefits of this synergistic partnership, and aggressively focused on continuing to be a company of world-class excellence.

We sincerely appreciate your business, and hope that our relationship provides many more years of shared success.
